Our glossy white label rolls are made from a medium thickness sheet that allows for easy feeding through both laser and inkjet printers. The sheets are topcoated specifically for use with inkjet label printers so that your inks instantly bond with the sheet, creating a smear-proof finish.

High gloss labels are paper-based labels with a smooth, shiny and bright white surface. The general purpose, permanent adhesive adheres beautifully to cardboard, metals and most plastics. LabelBasic glossy paper labels are highly water and abrasion resistant. They reflect light and help colors pop. Gloss labels are popular for their polished and professional appearance.
